in 1997 or thereabouts i wrote the first draft of black like him more than 200 pages of analysis since that time i ve lost a great deal of information including a number of my manuscripts but anything that can be done can be done twice in a better way this time i decided that instead of reading the book all over again i would take a shortcut since after all i already understand the gist of what griffin wrote in his 1961 tome black like me i went on line and found a version by sparknotes in case you don t know what that is it is another version of cliff s notes where there are edited versions of the classics and other works since most people are too lazy or busy to take the time to read the likes of manchild in the promised land odysseus to kill a mockingbird and other classics these books usually found on college campuses are available in most book stores for a price in today s hi tech world i figured that a downloadable copy of griffin s book could be located instead i got another idea i downloaded a sparknotes version of the book and this would give me the chance for dual analyses my previous understandings of the original black like me as well as some white man s interpretation via sparknotes of what the book was about i hope to add this analysis to other racial critiques i have written to publish and use as a model for what few conscious black people there are left in america scholars such as myself cannot compete with the hi tech manipulated manifestations of reality that these white people are so good at producing but the truth will eventually find its way and will find an audience of activist thinkers and that is my goal introducing a look back at the 1961 publication black like me

in the face of an uncertain and dangerous world americans yearn for a firm moral compass a clear set of ethical guidelines but as history shows by reducing complex situations to simple cases of right or wrong we often go astray in morality's muddy waters historian george cotkin offers a clarion call on behalf of moral complexity revisiting several defining moments in the twentieth century the american bombing of civilians during world war ii the my lai massacre racism in the south capital punishment the invasion of iraq cotkin chronicles how historical figures have grappled with the problem of evil and moral responsibility sometimes successfully oftentimes not in the process he offers a wide ranging tour of modern american history taken together cotkin maintains these episodes reveal that the central concepts of morality evil empathy and virtue are both necessary and troubling without empathy for example we fail to inhabit the world of others with it we sometimes elevate individual suffering over political complexities for cotkin close historical analysis may help reenergize these concepts for ethical thinking and acting morality's muddy waters argues for a moral turn in the way we study and think about history maintaining that even when answers to ethical dilemmas prove elusive the act of grappling with them is invaluable
